

ARTS with presence in the Middle East

Last year ARTS concluded promising cooperations with numerous companies in the Middle East. Since December 2018, the European aerospace expert has had a local contact directly in Dubai.

Local ARTS representative is Mahmoud Zarif. As Aerospace Project Coordinator he is responsible for the expansion of business relations in the Middle East. During this short period, he has already been able to win new business partners for the German Industrial Engineering service provider and supports the companies based there directly on site. Mahmoud Zarif has been active in the aerospace industry for almost 10 years.

The ARTS portfolio includes aviation-specific MRO services, tool management services, integrated logistics services and industrial maintenance. Dubai and Abu Dhabi in particular offer numerous opportunities and decisive locational advantages such as customer proximity and an excellently developed infrastructure. These are decisive factors in order to be able to optimally support customers in their challenges.
