

# AIRCRAFT MECHANIC MAINTENANCE CABIN (M/F/X)

ARTS

Realise the technologies of tomorrow within international projects and work as part of a team to bring innovation within reach – this is what ARTS can offer people with vision. As one of 500 experts, with ARTS you can help give international industrial companies in the field of engineering and production services the competitive edge and support our team with the highest level of motivation and expertise.

You have a strong technical understanding, flexibility and are an absolute team player. Then support our team in making tomorrow's technologies faster, better and more efficient today. We are looking for you as an **Aircraft Mechanic Maintenance Cabin** in **Dresden**.

## Task description

- Working on the seats in the cabin (Economy Class, Premium Economy and Business Class)
- Disassembly and assembly of parts, components and systems
- Execution of work on systems according to order and drawings
- Identification and documentation of errors
- Removal of complaints

## Requirements

- Completed vocational training as aircraft mechanic or comparable aviation-related training desirable
- Professional experience in maintenance
- Experience in working according to SB (Service Bulletin) and CMM (Component Maintenance Manual)
- Knowledge in handling work orders, drawings, parts lists and aircraft documentation
- Fluent in English
- Willingness to work shifts

## Our Services

- Permanent employment contract
- Above-average, performance-linked remuneration
- Intensive personal monitoring and extensive on-site support
- Company pension scheme with employer contributions
- Extensive opportunities for training and further education
