

CERTIFYING STAFF CAT B2 FALCON F900B (M/F/X)

ARTS

The future of technology is defined by people with vision and innovative ideas – people like you! As experts in engineering and production services, engineering consulting and HR services, for almost 20 years we have been supporting customers from the most diverse of high-tech industries. Become a member of our team of 500 experts and give our customers at 25 project sites the edge over the competition.

Extend your professional success as a **CAT B2 Aircraft Inspector** for the Falcon F900B series C-Check. In your future position at our customer in **Toulouse** you will be responsible, among other things, for the analysis of malfunctions and damage.

Task description

- Carrying out work on electrical, electronic and avionic systems
- Responsibility for the maintenance and servicing of the Falcon F900B aircraft
- Introduction of necessary measures for error correction
- Execution of all specified quality inspections and release of the aircraft
- Control and documentation of the performed maintenance and repair work

Requirements

- Completed technical vocational training, e.g. as aircraft electronics technician
- First experience with the maintenance of aircraft
- Knowledge of quality management systems in aviation
- CAT B2 license required
- Fluency in English and French
- Willingness to work shifts

Our Services

- Above-average and performance-related pay
- Personal, on-site support
- Extensive training and further education opportunities
- Open and friendly working atmosphere in a motivated team
