

SYSTEM ENGINEER VIRTUALIZATION (M/F/X)

ARTS

With a high level of motivation and the best expertise available, the employees of ARTS work on a daily basis to realise the vision of our customers. More than 500 ARTS employees at 25 international locations define the future of technology today, working actively alongside internationally active high-tech companies. Together with ARTS you too can make your career a calling.

For our customer we are looking for a **System Engineer Virtualization** in **Hamburg**. In the future position, you will be responsible for technical customer support. Gain insights into exciting areas of activity and score points with a pronounced team and high customer orientation.

Task description

- Conception, planning and implementation of projects in the area of Citrix and VMware
- Error analysis and methodically experienced solution of technical problems
- Processing of customer-specific support enquiries and fault reports
- Installation, operation and support of the systems
- Documentation of technical facts and recording of services

Requirements

- Degree in (Business) Computer Science
- Alternative training as IT specialist with corresponding professional experience, e.g. as IT administrator or systems engineer
- Comprehensive knowledge of the Citrix product portfolio and/or virtualization using VMware and vSphere
- Microsoft server, storage and network expertise
- Very good knowledge of German and English
- Driving licence required
- Willingness to travel

Our Services

- Exciting tasks in an innovative working environment
- Modern workplace
- Above-average and performance-related pay
- Over-tariff surcharges and allowances
- Open and friendly working atmosphere
