

# TECHNICAL EDITOR MAINTENANCE (M/F/X)

ARTS

The future of technology is defined by people with vision and innovative ideas – people like you! As experts in engineering and production services, engineering consulting and HR services, for almost 20 years we have been supporting customers from the most diverse of high-tech industries. Become a member of our team of 500 experts and give our customers at 25 project sites the edge over the competition.

Extend your professional success as a **Technical Editor** in **Manching** at our customer **Airbus Defence and Space GmbH**. In your future position you will be responsible for obtaining the necessary information as well as creating, adapting and nationalizing data modules.

## Task description

- Planning, creation, configuration, updating and administration of technical data and publications
- Verification of data modules with system engineers and test pilots
- Responsibility for the product assurance of the flight manuals and checklists that have been drawn up
- Incorporation of flight test reports
- Processing of customer comments and regular progress reports for customers
- Technical and timing coordination with the partner companies and the German Air Force offices
- Representation of interests at internal and external meetings

## Requirements

- Completed studies in aeronautics and space travel
- Training as pilot or weapon system officer is mandatory
- Several years of professional experience in manufacturing/production, aerospace and technical documentation
- Know-how in ILS Configuration Management required
- Knowledge of the tools SGML Editor, IETP-X, PDM and CSDB is desirable.
- Very good knowledge of German and English

## Our Services

- Permanent employment contract
- Above-average, performance-linked remuneration
- Bonuses and allowances above standard rates
- Annual bonus payments
- Personal support close to work
- Company pension scheme with employer contributions
- Extensive opportunities for training and further education

Manching | 1618
